

MACHINE/ASSET/VENUE MANAGEMENT

Simple, accurate storage of:

- Track Machine Movements, Conversion, Installs and Disposals providing DIA with compliant reports.
- Asset Management
- Provide DIA venue and key person information.
- Store important information such as Gaming Machine Faults, and Venue Issues
- Track Financing Repayments and money owing on Gaming Machines and Assets. The Machines and Assets can be moved to a different venue along with their finance information.
- Audit Information
- Venue License Renewal reminders
- Key Person training and contact details

The Database will be:

- Personalised to your trust – logos, colours, letters, report formats can all be pre-specified
- Multiple Trusts can be used in the one system
- Able to be modified to your future requirements
